President, Qatar Swimming Association

Dear friends and colleagues, it is my honour to welcome you to Qatar for the World Aquatics Championships.

As a proud Qatari and passionate member of the World Aquatics family, this is a very special moment for me, as well as my country.

Qatar has had the privilege of hosting a number of World Aquatics events in the past. Many of you will remember the 12th FINA World Swimming Championships (25m) we hosted here in 2014. We have also hosted nine editions of the FINA Swimming World Cup, four FINA Marathon Swim World Series events and a FINA Diving World Series event in 2009. As well as numerous aquatic sport competitions in multi-sport events such as the Asian Games and ANOC World Beach Games.

But with the utmost respect, these excellent aquatics events cannot compare to hosting the flagship event in our sport: the World Aquatics Championships. The World Championships is unique in bringing the best athletes from all six aquatic sports together in a celebration of our one sport. It reflects that we are one aquatics family, united through water.

We are grateful for the trust you have shown in awarding us the right to host these prestigious Championships. And we can assure you we will honour that trust with an exceptional event.

Doha 2024 has embraced innovation and creativity as we look to set new standards and stage the best ever World Championships. A sustainable, inclusive, and outstanding World Championships which matches the excellence of our athletes. As the World Aquatics Championships-Doha 2024 is one of two qualifying events for relays for the Olympic Games Paris 2024, World Aquatics has decided to expand the methods by which Member Federations can qualify for Doha. Federations can either qualify relays via the current method of which forming a team of swimmers who have qualified for an individual event, and additionally, time standards for male and female relays have been established for the following relay events:

- **4x100m Freestyle,**
